Wednesday, 21 September 2016

London – 21st September 2016 – Unified communications vendor Swyx (<http://www.swyx.com>) has announced that its SwyxWare range now fully supports SIP trunking services provided by BT Wholesale (<https://www.btwholesale.com>), extending the choice of suppliers for voice termination for its UK channel partners.

Swyx International Cloud Manager, Michael Landin commented, "We are delighted to announce that BT's Wholesale SIP Trunking service in the UK is now fully tested and approved to work with our SwyxWare range. This provides even greater choice for our channel partners, who in turn can pass on the combined benefits of our latest unified communications platform together with cost-effective connectivity services provided by the UK's premier carrier."

Senior Product Manager, Hosted Communication Services at BT Wholesale, Gemma Hutchins, commented, "Further to successful interoperability testing we can confirm that SwyxWare is now fully authorised to be connected with our Wholesale SIP Trunking (WSIPT) platform and we look forward to providing services to Swyx's growing network of partners across the UK."

About Swyx

Swyx your business.

Swyx operates as a pan-European market leader via two-tier distribution and over 1,200 authorised resellers: the Dortmund based company with dedicated offices in the UK and France sells not only software solutions in six languages, but also has a range of suitable phones and other hardware devices in its product portfolio. Swyx's award-winning unified communications provides not only in-house (CPE) solutions, but also cloud-based variants with well-known partners: Europe already has 750,000 users that rely on Swyx, of which around 10 percent have chosen to use a cloud-based solution. The company currently employs more than 150 staff who are responsible for continually improving the SwyxWare solution for the communication requirements of today and in the future. For further information, see www.swyx.com.

About BT

BT's purpose is to use the power of communications to make a better world. It is one of the world's leading providers of communications services and solutions, serving customers in 180 countries. Its principal activities include the provision of networked IT services globally; local, national and international telecommunications services to its customers for use at home, at work and on the move; broadband, TV and internet products and services; and converged fixed-mobile products and services. BT consists of six customer-facing lines of business: Consumer, EE, Business and Public Sector, Global Services, Wholesale and Ventures, and Openreach.

For the year ended 31 March 2016, BT Group's reported revenue was £19,042m with reported profit before taxation of £3,029m.

British Telecommunications plc (BT) is a wholly-owned subsidiary of BT Group plc and encompasses virtually all businesses and assets of the BT Group. BT Group plc is listed on stock exchanges in London and New York.
