## NETMASTER SOLUTIONS ACHIEVES ISO 27001 CERTIFICATION

-digital bundling & court presentation software offers highest levels of security-

Netmaster Solutions Ltd, (NSL) a global leader in cloud-based solutions to the legal services market with its e-bundle and court presentation system, CaseLines, has achieved certification to ISO 27001 Information Security Management.

ISO 27001 provides a recognised framework that helps companies implement, maintain and continuously improve their Information Security Management System (ISMS). ISO 27001 is the most widely recognized information security management standard certification in the world. To achieve this certification, NSL demonstrated secure standards and an on-going commitment to provide a secure environment for the protection and confidentiality of its clients' data.

### Comments on the News

"Many of the world's leading courts and lawyers trust us to keep their data secure," said David Jackson, Managing Director of NSL. "Certification to ISO 27001 reflects our capability and continual commitment to improvement in everything we do and how seriously we take the confidentiality and integrity of information. CaseLines is a uniquely collaborative system for improving justice delivery. As the company develops new services and our client list grows, we need to ensure that we are able to meet current and emerging client expectations in this fast evolving area."
