

## Tim Eltze appointed as CFO at TDB Fusion

Submitted by: Insight Marketing Concepts

Thursday, 26 January 2017

---

Tim Eltze joins TDB Fusion Limited (<https://www.tdbfusion.com>) as CFO responsible for corporate financial management.

Tim brings over two decades of extensive business knowledge to TDB from the technology sector including senior positions at Expansys Plc, a global online technology business, holding the positions of President of Expansys (USA) based in Chicgao and Group Chief Operating Officer. Previous to Expansys he was the Chief Operating Officer at Data Select Limited, one of the UK's leading distributors of mobile phones, and Network Solutions where he oversaw substantial change and growth. Prior to this, he was European Commercial Finance Director at Maritz, the US based global sales and marketing services business, with responsibility for financial, commercial and legal activities relating to all its European sales and Head of Finance for O2 UK, where he was closely involved in delivering operational performance and enhanced shareholder returns.

"TDB Fusion invested significantly in product development, business expansion and customer support during 2016 resulting in significant business expansion", said Colin Aurelius, TDB Fusion CEO (<https://www.tdbfusion.com/contact-us/about/>). "Tim is a highly talented financial professional with extensive business experience and brings a combination of skills to the role. In this period of rapid and dynamic change for TDB it's important that we have Tim's input to help us and our clients capitalise on the business opportunities delivered from Federos."

Tim Eltze brings over 20 years of industry knowledge from a broad spectrum of technology and business sectors including mobile phone, communications, marketing & advertising, and mergers and acquisitions. He has wide ranging experience of international senior leadership in finance and operations and a recognised track record in financial management, corporate strategy with management experience of operating units for international business units in sales, acquisitions, disposals, change, restructuring and international development. Tim has a Bachelor's degree in Finance, Law, and Marketing, is a Chartered Accountant and a member of CIMA (Chartered Institute of Management Accountants).

TDB Fusion has been expanding rapidly reporting a revenue increase of 145% in 2016, along with a doubling of the workforce, the opening of a new sales and support office in London and increasing the headquarters facility in Bracknell. Tim's appointment sees the management team reaching full strength, positioning TDB Fusion to continue its growth during 2017.

#### About TDB Fusion

TDB Fusion provide market leading software solutions to control and manage the convergence of business applications, IT management, cloud, and data centre systems. Our Federos™ Product Suite delivers a unique approach to bridging the gap between traditional and cloud based systems with a flexible, automated, and dynamic user dashboard enabling more effective business management. Federos™ removes silos of information across the business and provides real-time access to key information whenever and wherever it is needed. From the NOC to the boardroom, Federos™ delivers significant operational savings and efficiency improvements to the complete business.

Our range of software solutions are utilised across key environments including IT Systems Management, Network Management, and Data Centre Management and embraced across key market sectors of service providers, financial institutions and enterprise organisations worldwide including Fujitsu, GEO Networks, a Tier 1 Bank, Global Cloud Xchange, Tata Communications, and VIRTUS Data Centres.

TDB Fusion has been expanding rapidly reporting a revenue increase of 145% in 2016, along with a doubling of the workforce, the opening of a new sales and support office in London and increasing the headquarters facility in Bracknell.

#### About Federos™

Federos™ (<https://www.tdbfusion.com/federos-product-suite/>) provides organisations with a converged information solution significantly enhancing functionality and increasing management flexibility, enabling users across the business to review and consume key data through a simple browser based interface. Your business becomes more responsive, through the operational orchestration and automation of regular and critical business processes.

Federos™ integrates multi-vendor systems and data centre management tools to provide organisations with a holistic, bi-directional view of their IT infrastructure and data centre operations. It provides organisations with a unified view of Business, IT and Data Centre Management Systems underpinned by customisable business led workflow and integration.

The Federos™ Unified Service Portal provides a correlated, role-based, bi-directional user interface based on multi-vendor management systems, empowering the user with context related information in a single view. Single sign-on underpinned by comprehensive security management and workflow provides organisations with the benefits of a flexible, intuitive user interface, whilst leveraging rather than

replacing legacy data sources. Federos™ is utilised across a broad spectrum of industries and operational environments - unlocking the Network Operations Centre (NOC), extending Data Centre Infrastructure Management (DCIM) and empowering Managed, Hosted and Cloud Service providers.
