

ABL&E appointed to represent Gamlen Instruments

Submitted by: Gamlen Tableting

Wednesday, 26 July 2017

Gamlen Instruments (<http://www.gamlentableting.com>) has appointed ABL&E as the exclusive distributor for Gamlen Instruments in Eastern Europe. ABL&E (<http://www.ablelab.eu/>) is a specialist distributor of pharmaceutical laboratory equipment focused on pharmaceutical testing, medicinal chemistry and the life sciences. Based in Hungary, ABL&E has a network of offices and partners that are able to deliver expert technical advice and assistance to customers.

Gamlen Instruments has a truly global customer base and is committed to providing the highest levels of customer service and post sales aftercare. Dr Michael Gamlen, Managing Director, Gamlen Instruments commented: "A key strength of ABL&E is their capability to communicate with customers in their local languages. Coupled with their technical expertise, they are well placed to attract and support users of Gamlen Instruments across their territories."

Offering the Gamlen range of benchtop powder compaction instruments, and their applications in pre-formulation, formulation, process development and production, will enable ABL&E to extend its pharmaceutical testing product range.
