

Excel launches their new Encyclopaedia!

Submitted by: Mayflex

Tuesday, 6 February 2018

Excel Networking Solutions has recently launched the fourth edition of their Excel Encyclopaedia

(https://www.excel-networking.com/excel-encyclopaedia?utm_source=Press%20Release&utm_medium=ResponseSource&utm_campaign=Excel%20Encyclopaedia%20V4)

The first version of the publication was launched back in September 2010 and received much acclaim for its educational and factual content.

Since Excel first launched 21 years ago

(<https://www.excel-networking.com/news/excel-celebrates-its-21st-birthday>), the brand has grown to become

an award-winning provider of structured cabling solutions sold in over 70 countries worldwide

(<https://www.excel-networking.com/news/excel-exhibiting-worldwide>). During this time, the Excel brand has

continued to embrace new technologies in both their product portfolio and in their communication efforts.

The Excel Encyclopaedia V4 has been aligned with the company's digital drive, being made available primarily as an electronic publication, featuring hyperlinks, buttons and videos throughout each chapter to link to various areas of the Excel website, social media channels and useful documentation.

Tracey Calcutt, Marketing Manager, commented, "We are excited to release the latest version of our Excel Encyclopaedia. This fourth edition features up to date content alongside four new chapters which focus on new products and services to the Excel range, such as Bespoke Engraved Labelling (<https://www.excel-networking.com/downloads/section-6-excel-labelling-solutions>) and the Excel Residential Solution

(<https://www.excel-networking.com/downloads/section-10-excel-residential-solutions>)."

Tracey continued, "Also new to the Encyclopaedia is a section dedicated to the Construction Products Regulation (CPR) (<https://www.excel-networking.com/downloads/section-2-construction-products-regulation>).

A prevalent topic in the industry, the CPR section will be continually reviewed and updated with the latest information. Being a digital version, we will be able to make sure the most relevant materials are available."

Tracey concluded, "We will also be printing a reduced version of the Encyclopaedia, as well as providing digital versions in French and Spanish."

The Excel Encyclopaedia is available to read and download online

(https://www.excel-networking.com/excel-encyclopaedia?utm_source=Press%20Release&utm_medium=ResponseSource&utm_campaign=Excel%20Encyclopaedia%20V4)

either as a complete document, or as individual sections.

You can send an email to encyclopaedia@excel-networking.com to register your interest in receiving a printed copy once it is available or to leave your feedback about this new addition to the Excel bookshelf.

Background Information

Excel is a world-class premium performing end-to-end infrastructure solution – designed, manufactured,

supported and delivered – without compromise.

Excel is driven by a team of industry experts, ensuring the latest innovation and manufacturing capabilities are implemented to surpass quality and performance standards, technical compliance and excellence.

Excel structured cabling products constitute an end-to-end solution where performance and ease of installation are prerequisites. With an emphasis on compatibility and standards compliance ‘from cable to rack’, reliability and product availability, Excel is the complete trusted solution. Since the brand was conceived in 1997, Excel has enjoyed formidable growth.

The meteoric rise of the brand reflects a growing demand throughout EMEA for a reliable, standards-compliant, readily available, structured cabling and rack system. Excel is able to deliver this mix as a result of strict European quality assurance and a growing base of distributors and integrators across EMEA, which combine to make the brand an increasingly viable option. With a focus on independent testing and a full 25 year product and application warranty, when installed by an authorised Excel Partner, it’s easy to see why this is the system of choice in many government, education, and commercial installations.

Award Winning:

Excel has won the following industry awards:

- Network Computing 2016 – Cabling Supplier of the Year
- Network Computing 2015 – Cabling Supplier of the Year
- Network Computing 2014 – Cabling Supplier of the Year
- Network Computing 2013 – Cabling Supplier of the Year
- Network Computing 2012 – Cabling Supplier of the Year
- Network Computing 2011 – Cabling Supplier of the Year
- Comms Expo 2012 – Manufacturer of the Year
