

Just in time for the festival season - new dry shampoo launch

Submitted by: Nature's Dream

Thursday, 17 May 2018

Launching in the UK early June.

New products exclusively developed for the UK market.

High res photos available from carolyn@naturesdream.co.uk

Naturtint is committed to delivering naturally better hair colourants and has been at the forefront of reducing the amount of chemicals in hair colourants for the last 20 years.

And now, in response to customers' demands for gentle haircare treatments, the company has developed a natural, dry shampoo specifically designed to be eco-friendly with its pump action delivery.

It is certified Cosmo Natural by Ecocert.

With rice and barley starch to absorb excess oil and oat extract to strengthen and moisturise hair, this dry shampoo is the perfect size to drop in your handbag for a quick freshen-up when needed.

It'll be in the shops from June, just in time for the festival season!

Dry Shampoo 20g £9.99
