

Veterans' and People's Party Announce Party Leader

Submitted by: Veterans' and People's Party

Wednesday, 23 May 2018

The Veterans' and People's Party are pleased to announce the appointment of Robin Horsfall to the position of Interim Party Leader. Robin takes up his role with immediate effect.

Robin started following the Party before it became officially registered and has seen it grow and develop with a strong foundation that matches his views.

Robin regards British Politics as 'going through a period of decline and decay'. He wants the opportunity to affect changes that will benefit the weakest in society.

Many veterans will be aware that Robin served with the Parachute Regiment and Special Air Service and has an extensive service history. A qualified Paramedic he ran clinics all over the world and in 1991 built a hospital in Guyana. He has been involved in many veteran related activities over the years, publicly speaking up and out on injustices.

Robin has a degree in English Literature with Creative Writing, gained from Surrey University, and is the author of three books. He founded London Karate Ltd in 1992. His organisation now has more than one thousand children on their membership list.

He has been married to his wife Heather for thirty-seven years, with 5 children, ten grandchildren and one great-grandchild.

We look forward to working alongside Robin and progressing as a Party that challenges the current political status quo.

Wendy Spencer
