

Trade Skills 4U Group Launches New Electrical Training For Business Division

Submitted by: Trade Skills 4U

Tuesday, 14 August 2018

This summer the Trade Skills 4U group, the UK's No. 1 electrical training specialist, launches its new corporate division, Trade Skills Business, offering electrical training programmes for business.

This new division will focus on delivering quality practical and theoretical electrical training solutions to commercial businesses wanting a more bespoke service tailored to their individual needs.

Trade Skills 4U has seen a growing demand for training courses nationwide especially since the introduction of the C&G 2382-18 18th Edition Wiring Regulations. As the electrical industry continues to grow they feel it is more important than ever the correct electrical training is given to employees of larger companies as well as the sole traders. With this in mind they will be talking to local and national businesses across the country with a view to gaining an understanding of their requirements to enable them to create training schedules specifically structured to their business needs.

Carl Bennett Executive Chairman said "We are celebrating a year of growth and expansion and we understand the importance of maintaining and delivering quality training to our customers paving the way for our continued future growth.

"We believe we are the perfect business partner to offer bespoke electrical training not only for our existing customers who we have built productive relationships with over the years, but also to new customers who are looking to work with a partner to deliver real business benefits. We are also proud to be one of the UK's first training companies to achieve the IET Centres of Excellence."

The Group consistently delivers a huge range of electrical courses (<https://www.tradeskillsbusiness.co.uk/qualifications-1>) and a wide variety of specialist skills that won't be found anywhere else in the UK. Courses can be delivered at their state-of-the-art facilities nationwide, or onsite almost anywhere in the UK and can vary in duration and intensity from one day courses to extended periods up to sixteen weeks. Courses offered include C&G 2382-18 18th Edition, C&G 2391 Inspection & Testing, C&G 2365 Diploma Level 2 & 3, C&G 2377 PAT Testing, C&G 2396 Electrical Design, C&G 2919 EV Car Charging Point Installers courses, Emergency Lighting, Fire Alarms Training, BPEC Solar PV and many more.

Dedicated training supervisors are on hand to work with and identify the needs of their customers and programmes offered can be completely bespoke or an amalgamation of existing qualifications to provide the right mix of certification to meet customer needs.

If you would like to speak to a training supervisor please contact 0800 856 4448, or for more information please visit Trade Skills Business (<https://www.tradeskillsbusiness.co.uk/>).
