Food Safety - 'Risks, Threats & Vulnerabilities',  
One America Square, Central London, Thurs 27th Sept, 2018

Policy Management Software helps leading food and drinks companies manage compliance in highly regulated industry

London, UK – Sword Achiever, the European-based leader in Governance and Compliance software, will be demonstrating its Policy Management Software at the Food Safety event, being held on 27th September 2018, One America Square, Central London. The one day conference & networking event is attended by professionals from retailers & manufacturers from the frontline in the food industry, with speakers from leading companies including McDonald's, Pizza Hut Europe, itsu, Mathiesons, Compass Group and the Food Standards Agency.

The event includes panel discussions and demonstrations on technology & systems, new legislation and food safety culture, as well as informal lunchtime forums and open Q&A. Sword Achiever will be on hand to demonstrate and discuss how Sword Policy Manager helps organizations to implement a secure compliance programme, by enabling the entire lifecycle of policies and procedures to be measured and attested.

Salman Rauf, Head of Sales at Sword Achiever commented; "Demonstrating governance and compliance can be challenging in highly regulated industries like the food industry. We have experience of working with many recognized brands including Coca-Cola Bottling, Warburtons and Pepsico in the areas of Policy Management and compliance.

"The Food Safety Conference and Exhibition is an industry leading event and an ideal opportunity for us to meet with professionals and show how Sword Policy Manager can assist with issues such as governance and transparency to mitigate risk both in the supply chain and product development. As well as providing a full audit trail for changes made to policies and procedures, Sword Policy Manager enables straightforward communication of policies and procedures to staff, with the facility to show that staff have not only received the policies, but understand them and agree to comply with them."

Sword Achiever was included in the Top 25 Compliance Solution Providers 2017 as compiled by CIO Magazine.

NOTES TO EDITORS

About Food Safety Trends Conference

The one day conference & networking event provides delegates with the opportunity to hear case studies and practical experiences from retailers and manufacturers from the food industry. It is designed for Directors of Food Safety, Quality Directors, Head of Technical, VP Quality and QESH Directors working in the food industry.

The conference addresses technology & systems, new legislation, food safety culture and allergens and contaminants, as well as informal lunchtime forums and open Q&A. It enables companies to bolster Food & Drink Safety: strengthen supply chain vulnerability, understand risk assessments & product authenticity, drive food safety cultures & prepare for food fraud threats & legislative trends.
