Cambridge. 11 Oct 2018. - FotoInsight® now offers the popular photo Advent calendars in portrait format, too, as most mobile phone pictures are taken in portrait format. The photo Advent calendar (<http://fotoinsight.co.uk/photo-calendars/chocolate-advent-calendars.html>) is the ideal place for the year's most beautiful photographic memories and a perfect gift.

The creative Advent calendar idea

UK retailers stock many different and ever more expensive Advent calendars (<http://photo-offers.co.uk/photobook/creative-gift-ideas-for-christmas/>) on a variety of topics, like chocolate, spices, beauty products or sex toys. But why should one spend so much money for an uninspired, off-the-shelf Advent calendar, if designing a truly personal Advent calendar at a similar or lower cost is easy?

The pre-Christmas period is ideal for a review of the passing year. With FotoInsight's photo calendars (<http://fotoinsight.co.uk/photo-calendars.html>) for Advent, personal memories and experiences can be celebrated. The templates available online give the calendars a festive look. One can hardly prepare a greater joy.
