Today Fingerlings toys have evolved from cheeky monkeys into a whole range of adorable and fierce animals, and there are about to be five new friends to add to the gang! With 2,000 times more UNTAMED T-Rex (<https://untamed.wowwee.com>) sold in the UK alone last year than ever existed in the Jurassic era and two consecutive Dream Toys wins (<https://www.toyretailersassociation.co.uk/dream-toys>), Fingerlings (<https://www.fingerlings.com>) and Untamed toys continue to be some of the most popular in the UK.

Just arrived in the UK are Fingerlings Narwhals

(<https://www.dropbox.com/s/nua30m0dgel70zo/Fingerlings%20Narwhal%20Nelly.png?dl=0>), Untamed Dragons (<https://www.dropbox.com/s/zpewkh8o9iov3qf/Untamed%20Dragons.png?dl=0>), Fingerlings Elephants (<https://www.dropbox.com/s/0zq10j50hxllu9k/Fingerlings%20Elephants.png?dl=0>), Fingerlings Giraffes (<https://www.dropbox.com/s/dchul2fm72yzz3v/Fingerlings%20Giraffe.png?dl=0>) and the ever-so-glittery Fingerblings (<https://www.dropbox.com/s/rkagxiq93dcq3s9/Fingerblings.png?dl=0>)! Full of fun interactive features, Fingerlings blink their eyes, turn their heads, make sounds, and some also light up.

Introducing marine animals for the first time, new Fingerlings Narwhals

(<https://www.dropbox.com/s/ozwj6f0k2fwdmgt/Fingerlings%20Narwhal%20Group.png?dl=0>) are diving into stores across the nation this week. These adorable unicorns of the sea have many ways to play. With a special horn that lights up in different colours when you blow them kisses or shake them. When you pet them, Narwhals will flap their tails and blink their eyes to tell you how they're feeling. The Narwhals will also give you Magical Kisses that get bigger and louder the longer you press their faces to your cheek.

The Fingerlings and Untamed range are priced around GRP 14.99 each.
