Excel Launches a USA Product Guide

Submitted by: Mayflex
Wednesday, 3 April 2019

Excel Networking Solutions (https://www.excel-networking.com/), the infrastructure provider that offers: Copper and Optical Fiber, Pre-terminated Solutions, Racks, PDUs, Voice and a full range of accessories, has launched an A5 Catalogue (https://issuu.com/mayflex/docs/excel_usa_a5_product_guide_19-20_fi?e=32370324/68532521) specifically to showcase the wide range of Copper Category 6A and 6 products that are currently available in the USA.

The product guide (https://issuu.com/mayflex/docs/excel_usa_a5_product_guide_19-20_fi?e=32370324/68532521) clearly shows the full range available and provides a photograph, an overview, features and the part number information for each of the products available in the range.   Each product set carries the UL Certification, and this is clearly marked throughout.

Paul Mills, Director of Sales for North America region commented 'This handy A5 sized catalogue (https://issuu.com/mayflex/docs/excel_usa_a5_product_guide_19-20_fi?e=32370324/68532521) is a great tool for our installers, particularly those new to the Excel brand. We've printed copies to be distributed from the branches of our distribution partners that are carrying stock, and the catalogue is widely available digitally.

Paul continued 'Excel is currently available in the United States via several of the Sonepar USA Operating companies including; Codale Electric Supply, OneSource Distributors, Viking Electric Supply, World Electric Supply, Cooper Electric Supply and Friedman Electric and we're pleased to support them with tools such as the A5 product guide.'

Click here (https://issuu.com/mayflex/docs/excel_usa_a5_product_guide_19-20_fi?e=32370324/68532521) to download a copy of the Excel USA Product Guide
