

6CATS International shortlisted for Global Payroll Supplier of the Year Award

Submitted by: BlueSky Public Relations Ltd

Thursday, 11 April 2019

6CATS – the international contractor management specialist – is celebrating after it was shortlisted in the Global Payroll Awards 2019. The firm will go up against other entries in the Global Payroll Supplier of the Year Award category in interviews with the judging panel later this month.

Winners of the awards – which recognise those businesses driving the payroll industry forward, setting the standard and an example that others can aspire to follow – will be announced at an event in Budapest in May.

Michelle Reilly, CEO of 6CATS and Founder of 6CATSPRO – the firm’s consulting business – commented on this latest news:

“Being shortlisted for this prestigious award is not only great news for the company and our hard-working team, but also testament to the strategic approach we take in our work with recruiters, employers and contractors. By working in partnership with our clients and having a highly trained group of experts on hand with experience in global compliance across Europe, the Middle East, Africa and further afield, we’re able to provide fully compliant, transparent and streamlined contractor workforce solutions. Having the flexibility and experience to quickly develop solutions in ‘new’ countries also enables our clients to increase their global footprint without the need to invest or incorporate locally.”
