

Couple in Recovery set up a rehab to treat 'All Addictions'

Submitted by: Lovelong House

Tuesday, 14 May 2019

Lovelong House officially opens its 14 Bed Private Rehab with a well-being centre and high dependency unit

Offering 24-hour nursing care in a calm environment supported by a multidisciplinary team.

'In a world with so many addictions, treatment options need to focus on treating the individual. With an emphasis on the ongoing recovery journey and use of holistic treatments; I believe that providing the tools for self-care with an aftercare program, is a crucial ingredient to living a life free from addiction.' Jenny Andrew, CEO Lovelong House.

Lovelong house based in Littlehampton, West Sussex, is a brand new private Primary Detox and rehabilitation facility, for the treatment of people suffering from addiction. Specialising in Bespoke recovery - with supported after care. Focusing on the Medical- Physical -Emotional elements of recovery; Lovelong house offers a full itinerary based on a modern 12 Step approach. This includes a pick and mix of holistic treatments available in the well-being centre on site.

The multidisciplinary team at Lovelong house has a deep understanding and experience of the complexities often involved in recovery. Some having long term recovery themselves; the need for nurture, care and compassion is very much at the heart of it.

As well as providing a medical program of recovery, life long after care is at the core of the process. LoveLong House offers a 10-week family program to support loved ones affected, and a 24-hour Telephone Support Line for clients after discharge.

Founder Jenny Andrew, and her partner Gary Long who have a combined recovery time of 11 years from addiction, wanted to use their experience to help others. The need for an all-encompassing residential medical detox facility in the UK, spurred them on to make their vision a reality.
