

Duncan Kreeger launches prop tech business TAB APP

Submitted by: Samuel & Co Trading

Friday, 21 June 2019

West One loans founder and CEO of TAB Duncan Kreeger has launched a fractional ownership proposition, TAB APP. Investors, once the app is fully launched, will be able to invest in commercial and residential property in three clicks.

Duncan has created a simple explainer video to make the complicated world of fractional ownership, rental yields and investing simple for potential users, to watch the video simply click here <https://youtu.be/9-71jB5RVJw>. If you want to find out more simply watch the video and visit app.tabldn.com (<http://app.tabldn.com>) for more information.

Duncan Kreeger said: "Having worked within the property and financial services industry all my life I've long thought about how I can make a serious change to make people's lives easier and allow the general public to have access to rental returns without the heavy investment of a BTL purchase. That's why I bring you TAB APP, we'll give users long term sustainable returns on commercial and residential property from investing from £1,000. I'm delighted with what we're creating with my app developers Elemental Concept."

The TAB APP is not yet ready for users to download and invest, this will be coming within the next month as the APP is currently going through the first batch of user testing. Users can register to test the app by emailing hello@tabldn.com
