---

Nashville, TN - July 10 2019 — Cybera (<https://www.cybera.com/>), the leader in SD-WAN Edge application and security services, announced it has been named to the 2019 Elite 80 listing of the hottest cybersecurity, data management, and IT infrastructure companies. The annual listing by JMP Securities highlights the most interesting and strategically positioned private companies that have the capability to dominate their respective markets.

As an Elite 80 company, Cybera is viewed by the financial firm as among “the most innovative and promising companies in networking, security, and data management,” and with the ability to adjust to shifts in the marketplace, has “a strong opportunity to represent the next generation of IT infrastructure vendors.”

“We understand that enterprises are struggling to bridge legacy infrastructure needs with newer technologies that embrace digital transformation,” said Andrew Lev, CEO of Cybera. “We are pleased to be among the Elite 80, and we believe Cybera is well-positioned with innovative and enabling technologies—along with a healthy dose of unconventional thinking—to address these needs for our customers.”

The JMP Securities report notably states that “SD-WAN is gaining traction,” and that a paradigm shift to cloud networking is helping enterprises move from rigid and difficult-to-manage architectures to those that provide “better access to cloud services directly from remote and branch offices (ROBO).”

The CyberaONE™ Solution is purpose-built to address these needs by providing a unique architecture for highly distributed enterprises, including ROBO locations that want to increase operational efficiencies and cost savings through software-defined WAN solutions.

This is the fifth year of the annual JMP Securities Elite 80 report (formerly Super 70). JMP Securities LLC is a full-service investment bank that provides equity research, institutional brokerage, and investment banking services to growth companies in the technology, healthcare, financial services, and real estate markets.
