Subscription SSL Enables Customers to Maintain Continuous Website Security to Avoid Risks While Reducing Costs Associated with the Traditional Annual Renewal and Installation Process

ROSELAND, N.J., – October 23, 2019 – Sectigo (<https://sectigo.com>), the world's largest commercial Certificate Authority (CA) and a provider of purpose-built and automated PKI management solutions, today announced the availability of Sectigo Subscription SSL. This new type of SSL product enables customers to purchase two, three, four, or five-year certificate subscription bundles to maintain an active certificate for a longer duration.

Sectigo's Subscription SSL (<https://sectigo.com/>) enables customers and partners to put SSL in place for up to five years without the hassle of purchasing a new certificate every two years or less, and also alleviates budget confusion with an up-front, discounted payment. The Sectigo service automatically prompts the certificate owner for Certificate Signing Requests when needed and issues new certificates as necessary to ensure certificate integrity and compliance with CA/Browser Forum guidelines. This process can be fully automated by Sectigo's hosting partners.

"Sectigo's Subscription SSL allows us to streamline the purchasing process for our customers, saving both time and money," said Kyle Grueninger, Vice President of The SSL Store™. "With the bundling options, website owners can now secure their websites at a discount and obtain continuous certificate coverage for up to five years."

Pricing and Availability

SSL Bundles are offered for Domain Validated (DV) and Organization Validated (OV) TLS/SSL certificates at up to a 20% discount when compared to buying a new one-year certificate every year. Sectigo's Subscription SSL is available on Sectigo.com (<https://sectigo.com/>), PositiveSSL.com (<https://www.positivessl.com/>), and InstantSSL.com (<https://www.instantssl.com/>) and through Sectigo partners. Partners can sign up to resell Sectigo Subscription SSL by contacting partners@sectigo.com.

About Sectigo

Sectigo provides award-winning (<https://sectigo.com/awards>) purpose-built and automated PKI management solutions to secure websites, connected devices, applications, and digital identities. As the largest commercial Certificate Authority, trusted by enterprises globally for more than 20 years, and more than 100 million SSL certificates issued in over 200 countries, Sectigo has the proven performance and experience to meet the growing needs of securing today's digital landscape. For more information, visit www.sectigo.com (<https://sectigo.com/>).
