---

Helsinki, Finland - Eniram Limited, the award-winning provider of fuel-saving technology and data analytics to the shipping industry, today announced that it is expanding its European operations by opening a new office in Central London.

“We are happy to announce that our new office is located in the heart of the London shipping community at 4 Lombard Street adjacent to Bank Underground at Bank Interchange, with easy access to many of our present and future customers”, says Captain Jan Wilhelmsson, Vice-President Commercial Shipping, Eniram.

“Central London was a clear choice for us as it is the primary hub for shipping-related services”, Captain Jan Wilhelmsson continues. “With digitization making a disruptive entry into all aspects of commercial shipping operations in the next few years, we are building something that makes a difference to the bottom line and we look forward to bringing new technology and advanced analytics to the table.”

## ABOUT ENIRAM

Established in 2005, Eniram provides the maritime industry with energy management technology to reduce fuel consumption and harmful emissions. Created by experienced seafarers and technologists, Eniram’s solutions range from single onboard applications to comprehensive fleet analysis. They are used by small and large shipping companies on ships ranging from cruise liners, tankers, LNGs, container ships, bulkers and ferries. Eniram is headquartered in Helsinki, Finland and has subsidiaries in the UK, the USA, Germany and Singapore. [www.eniram.fi](http://www.eniram.fi)
