The New Consumer Tool to Online Shopping.

No one can argue that online shopping has completely inspired the art of shopping. Skipping out on the crowds and queues is definitely a time saver but now it actual PAYS as well. The Kings of Cashback ([www.cashbackkings.com](http://www.cashbackkings.com)) not only offer deals that aren't found anywhere else but they also PAY you good hard cash to shop online.

How it works

Cashbackkings is simply the smartest way to shop online. Shoppers use the site like a gateway to more than 2,000 online retailers, including blue-chip companies like American Express, Debenhams, Expedia, Currys, M&S, Dell, and Tesco. These retailers pay a referral commission for any business that is passed to their websites, but rather than keeping this commission, cashbackkings passes the commission straight back to the customer i.e. giving the customer "cashback". Typical cashback deals range from 7% up to as high as 50% of the total amount spent. Cashbackkings earns its money by retaining the first £5 of cashback that the shopper earns each year. So for the online shopper it is a no-brainer, they get the same lowest possible online price, and they get cashback on every purchase.

Top 5 Deals Offered Online TODAY:
