

UK E-signature software Legalsign is named top UK provider and "High Performer" in world rankings on G2 reviews market analysis.

Submitted by: Legalsign

Monday, 17 July 2017

Legalsign is proud to be awarded "High Performer" status by G2 Crowd in their summer 2017 market analysis. Legalsign is also the top UK provider. G2 Crowd is one of the world's largest software review sites, and the leading guide to the e-signature market.

Legalsign is also G2 Crowd's top performer in the key analysis subsets of "quality of support", "ease of doing business with", "product direction" and "performance and reliability" indicating Legalsign's true business customer focus.

By contrast to market leaders who find it difficult to maintain customer responsiveness, Legalsign excels in providing service for business customers where e-signature is critical to day-to-day operations.

Ben Elliott CEO said, "The award confirm Legalsign's position as the proven e-signature software for UK business, the only provider that is ISO27001 certified for information security and offers Certified PDFs for the highest grade of document integrity obtainable."
