Picture the scene: you're sitting in your pyjamas, enjoying a game of online bingo and you fancy your chances on a slots game. It's a great girly night in, giving you the chance to chat to friends online and potentially win a big jackpot. Suddenly, a message appears on the screen telling you that you've hit the jackpot. It's a dream for many online bingo players across the UK but it's a dream which became a reality for lucky Mecca Bingo (<http://www.meccabingo.com>) player BELLE08 who won a massive £111,967.08!

BELLE08 hit the jackpot at the online bingo website when she played the Lucky Ladies 88 slot game after she told colleagues at work that day that she was feeling lucky. She had only staked £1.80 on the game which won her the life-changing sum of money.

All big players who scoop a big win at Mecca Bingo are invited down to London to receive the coveted big cheque and player BELLE08 was no exception. On her visit to London to collect her prize, the lucky lady was clearly still overwhelmed by her big win:

"At first I thought I had only won £1000 or so. I felt like I had a stroke when I saw that I had won that much, I felt poorly! I couldn't believe it".

As a bingo regular, BELLE08 plays online bingo (<http://www.meccabingo.com>) at Mecca Bingo but is also a member of Mecca Bradford. Her shock at winning such a substantial jackpot left her unable to sleep for a week following the win, as she said:

"Like most bingo regulars I didn't think people actually win these amounts of money.... I never thought you could win these amounts online". Proof that big jackpot wins happen every day is demonstrated by winners like BELLE08 whose lives change while they're just sitting in their PJ's!

The lucky jackpot winner has decided to share some of the money with her family and is planning a trip to Australia.

Mecca Bingo, whose new website launched this month, gives away thousands of pounds every week. Play online bingo at www.meccabingo.com.
