

Radtac Scrum Alliance Boot Camps for Scrum Masters and Scrum Developers

Submitted by: Radtac Ltd
Monday, 27 January 2014

Radtac is introducing a new 'Boot Camp' style training option in 2014. The first 'Boot Camp' will see Certified Scrum Master (CSM) and Certified Scrum Developer JAVA (CSD) courses paired to form a 5 day training programme.

The 5 day programme is intended to help qualify those wanting to achieve their Certified Scrum Developer (CSD) credential. The training which comprises of a 3-day CSD course and a 2-day CSM course will fully satisfy the elective requirement outlined by the Scrum Alliance who certifies this qualification.

The first CSM/CSD Course will be held on 12-16 May 2014 in London. Peter Measey will host the CSM whilst Richard Levy the CSD JAVA.

Peter Measey, Radtac CEO commented "Radtac leads the provision of Extreme Programming based training in the UK for the Scrum Alliance qualification Certified Scrum Developer. By making these two qualifications available in one 5 day course we believe that we are putting together a really strong offering for developers seeking to use Scrum practices in their everyday work"

Jose Casal, Head of Radtac:Training added "The Boot Camp series we are introducing this year further demonstrates both the depth of offering from Radtac:Training in certified agile training as well as our ability to offer unique value added benefits in the market for our course attendees".

Further information and registration details are now available on our website <http://radtac.co.uk/training/bootcamp> or by contacting us on 0203 6385040 or training@radtac.co.uk
