

# Trade Skills 4U To Open New Coventry Electrical Training Centre

Submitted by: Trade Skills 4U

Tuesday, 29 January 2019

---

Market leading electrical training provider Trade Skills 4U announces a new expansion into the Midlands as it looks to target aspiring electricians in the region.

The new state-of-the-art training facility will be based in the Midlands region and will open at the end of April 2019. This location will act as a Midlands base from which Trade Skills 4U can deliver their industry leading courses. However, all course advice, management and administration will still be covered by their head office just by London Gatwick.

As specialists in electrical training Trade Skills 4U offer the largest range of electrician courses ([www.tradeskills4u.co.uk/pages/courses](http://www.tradeskills4u.co.uk/pages/courses)) in the UK for new entrants, existing electricians and companies from their main centres based in Gatwick, Warrington, London and a recently opened facility in Leeds. Customers can choose from a huge range of courses including; 18th Edition, Domestic Installer Packages, City & Guilds Diplomas, Inspection and Testing, EV Charging Point, plus much more.

In order to satisfy the high demand for the new 18th Edition of the electrical regulations, in July 2018 the company introduced 4 new pop up centres based in Newcastle, Cardiff, Hatfield and Coventry.

The new centre will be situated in Westwood Business Park right next to Warwick University with excellent facilities and transport links right on its doorstep.

Exec Chairman, Carl Bennett said: "With the ongoing success of the business we have made the decision to open our fourth fully fledged training centre in Coventry. The new facility will be situated close to major road links, M6, M1, M42 and M69 and will open up opportunities for aspiring electricians from the West and East Midlands."

Carl continued: "Our students can rest assured that they will receive first class training delivered by skilled tutors who have experience both on the tools and in teaching. The new facility will offer a fresh and bright learning environment built to the very highest of specifications, equipped with the latest technology in keeping with Trade Skills 4U's usual high standards."

Every year more people pass City & Guilds electrical courses with Trade Skills 4U than with any other UK provider and are the first electrical training company to be accepted into the Institution of Engineering and Technology's Centre of Excellence.

Enquiries are now being taken for courses delivered in Coventry, please call 0800 856 4448 to speak to a course advisor who will be happy to help. Alternatively you can visit: [www.tradeskills4u.co.uk/pages/training-centre-locations](http://www.tradeskills4u.co.uk/pages/training-centre-locations) where you can view all centre locations.

Notes to editors:
