This year is going to be a stay-at-home Christmas for many but there's no need to be bored watching repeats on the telly or to miss out on your favourite party tunes because Yamaha Music London is bringing the festive cheer with its affordable Hi-Fi and home cinema ranges.

Dramas, sport, movies, especially Christmas movies, are best experienced with surround sound - just as the director intended. But replicating the set-up of your local cinema is rarely practical; even if you can live with the wiring, it's still a challenge to add and position so many speakers.

MusicCast Surround - cutting edge wireless sound and virtual surround - simplifies audio for home cinema. Start with a MusicCast BAR soundbar and just add two MusicCast 20 speakers, or one or two MusicCast 50 speakers. No trailing audio cables, no fuss; just incredible immersive sound.

Thrilling Home Cinema Experience

The jaw-dropping Virtual:X technology from cinema legends DTS built-in means that you can experience a sense of height with sounds seemingly above and below you, as well as in front and behind. Ideal for watching Die Hard!

The Yamaha MusicCast Bar 40 brings a host of features including the exhilarating 3D surround sound of the BAR 40, Hi-Res Audio, built in music streaming services and MusicCast multi-room functionality. This package allows you to sit back and enjoy thrilling sound as the filmmakers intended.
